GOT LEPROSY FROM VACCINATION .-William Bryan of 229 west Sixty-third street, a youth afflicted with leprosy, was transferred to North Brother Island Wednesday from the Reception Hospital. The nature of his malady was discovered on Tuesday at the Roosevelt Hospital when he applied there for treatment, and a report was made to the health authorities, who at once removed him to the Reception Hospital. Bryan is a mulatto, who was formerly employed as a hall boy in several hotels in this city. He was last employed in a private family. On his applying at the free dispensary of the Roosevelt Hospital for treatment De Frank Hartley the consulting phy-Dr. Frank Hartley, the consulting physician to the hospital, who examined him, diagnosed his disease as leprosy The health authorities confirmed this diagnosis.

Bryan will be isolated in the little Ducker cottage on North Brother Island, which was formerly occupied by two Chinese lepers. It is believed he contracted the disease in the West Indies from the arm to arm vaccination which is required by the British colonial government there. His father was an Englishman, who married a colored woman at St. Kitts. Mr. Bryan died six years ago of yellow fever. His wife has two sons. She says there is no leprosy in her family.

Dr. Benedict, chief of the Bureau of

Contagious Diseases, said Wednesday that the case was not a virulent one, and that no danger was to be feared from contagion.—N. Y. Sun.
